CAREER OBJECTIVE

Final-year B.E Data Science student with hands-on experience building Python applications using Streamlit, Scikit-learn, Flask and LLM APIs, including an NLP-based resume analyzer and an AI career guidance app.

EDUCATION

Bachelor of Engineering in Data Science 2023 – 2027
Aditya College of Engineering and Technology Bengaluru, India

Pre University Course 2021 – 2023
Jindal Pre University College Bengaluru,India

SSLC 2020
Schoenstatt St Mary's High School Bengaluru,India

SKILLS

Programming
Python, SQL, HTML, CSS

Tools and Framework
Streamlit, Flask, Git, GitHub, MS Excel, VS Code

Data and ML
Pandas, NumPy, Scikit-learn, CTGAN, Matplotlib, Plotly

Databases
SQL, MongoDB

CERTIFICATES

- Python for Data Science – NPTEL (Elite – 68%)
- Agile Scrum Master – Simplilearn

LANGUAGES

- English , Kannada

PROJECTS

Intelligent Waste Management System
Tech Stack: HTML, CSS, JavaScript, Firebase
- Built a web-based waste management system featuring citizen and administrator dashboards, smart-bin tracking, QR codes, and map-based collection management.

STATWISE AI — AI-Powered Learning Platform
Tech Stack: React, TypeScript, Python, FastAPI, PostgreSQL
- Developed an AI-powered learning platform interface for competency assessment, skill-gap identification, learner management, and personalized learning workflows.

Generative AI for Synthetic Data Privacy
Tech Stack:Python, CTGAN, Pandas, Scikit-learn, Streamlit
- Developed a synthetic data generation platform using CTGAN to generate tabular data and evaluate its statistical similarity to real datasets.

AI Data Analyst Assistant
Tech Stack : Python, Pandas, Streamlit, Plotly
- Built an interactive application for uploading CSV files, analyzing datasets, generating visualizations, and retrieving insights through natural-language queries.

AI Resume Screening & Job Match Analyzer
Tech Stack: Python, Streamlit, Scikit-learn, NLP, TF-IDF, Cosine Similarity
- Developed a resume screening application that compares resumes against job descriptions using text similarity and generates resume-match scores.
